EXAMINER'S AMENDMENT

This Office Action is responsive to the applicants' amendment filed on April 21, 2006.

Claims 14-21 have been canceled. Thus, claims 1-13 and 22 are pending in this application.

Allowable Subject Matter

Claims 1-13 and 22 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claims 1 and 22: the prior art fails to disclose or render obvious the claimed combination including: a locking pin mounted to the rotating shaft to project from the rotating shaft and to make one of the first and second eccentric bushes eccentric from the rotating shaft while making a remaining one of the first and second eccentric bushes be released from eccentricity from the rotating shaft, the first and second eccentric bushes being eccentric in opposite directions; and a restraining unit fitting over the locking pin and outwardly projecting from the rotating shaft by a centrifugal force when the rotating shaft is rotated to execute a compression operation, and restrains first and second eccentric bushes provided in the compressor to prevent the first and second eccentric bushes from slipping

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
